If you have any intent to play long term, it's silly not to buy this. Definitely buy before expansions.. Worth it. The more you play the more benefit you will see from double experience gains. More level ups = more packs. A good deal and it helps support the developers. Win\win.. amazing game! love the goodies and shop items! weekly rewards! this game is about your strategy, not rng. buy it now! just bought all the dlc to support the devs! hoping for awesome content to keep flowing in!. Worth it. The more you play the more benefit you will see from double experience gains. More level ups = more packs. A good deal and it helps support the developers. Win\win.. The devs are exceedingly generous with their battle chest system that practically ensures any new player can rapidly build up a collection with little to no grinding. The permanent double xp makes this a fantastic purchase.. DLC cash grab for an unsupported pile of garbage.. its basically usefull for new player who buy everything from the start to catch up faster with all veteran player in terms of card collection.

But oh well..., CCG with with 'booster pack' basen on level progression and mission\ quest with guaranteed no more than 3 duplicate ? I'm in.

. I really like the Faeria Devs and I have all Faeria DLCs.

I didn't get the 5 Mythic Chests and the Double XP feature doesn't seem to be working. When I win a game the XP Bar fills the same amount as before buying this DLC.

Do I need to uninstall the game to get the new features? Logout?

Also, for those who bored with "classic" MTG & HS card games.
Faeria is unique and well made.. nothing changes, how do i activate the premium?
edit: nvm, it goes to my least progressed account.. This game is amazing!!!!!! Omg best CCG I have ever found yet. =]
