Well worth it, cool ships and alot of customs + standards. Only get when its on sale 50% off. Recommended due to permanent boosts.. The good, the bad, and the very ugly. The good: +15k GS +3 fleet strength Grim and Phoenix, both rank 8 ships, can help you farming resources for destroyer/premium/special ships. +1 month licence The bad: +10% more credits alone is just not enough, there should be +1 loot search here too. again the same colour schemes. and again, you pay more, but you're not getting more. The very ugly: overpriced, even at 50%.. Well worth it, cool ships and alot of customs + standards. Overpriced even on half price. Don't waste money on this game. The phoenix is like a T2 ship anyway after the last patch.. Only get when its on sale 50% off. Recommended due to permanent boosts.. Only get when its on sale 50% off. Recommended due to permanent boosts.
